
RECOGNITION OF ACCOMPLISHMENT

- POLICY -

It is the Board's practice and intent to honour distinguished or exceptional achievement of students, staff and community members. This special recognition may take a variety of forms, as appropriate to the occasion or the achievement to be honoured. For example, the Board may issue special commendations, conduct presentations, or hold ceremonies.

The Board wishes to honour students, staff and community members for special recognition so that their example may serve as an inspiration to others in the Board's continuing effort to pursue its vision of "*Bringing Learning to Life*".
