
PROVISION OF EDUCATIONAL PROGRAMS TO STUDENTS

- POLICY-

The Board of Education believes that:

- a) every child has the fundamental right to an education regardless of that child's ability;
- b) education is a responsibility shared by the Ministry of Education, boards of education, students and parents or guardians, each having primary responsibility in some areas of the student's education while sharing mutual responsibility in other areas;

Fundamental in law is the Board's obligation to respond to the educational needs of all children within a framework of due process. In that respect the Board shall ensure that a principal/vice-principal/teacher offers to consult with parents and student (if appropriate) regarding the placement of the student in an educational program.
