

# SD 85 Leadership Team

## Our Guiding Principles

---

- Leadership operates from a growth mindset that commands high expectations for all
- Leadership is the continuous pursuit of reflexive learning that holds us accountable to seek excellence in our own and others' professional practice
- Leadership ensures that our Enhancement Agreement and First Peoples' Principles of Learning are embedded in all learning experiences through relevant and meaningful professional practice
- Leadership embeds the inquiry process into system-wide learning
- Leadership ensures that decisions are based upon robust information on student achievement
- Leadership fosters positive meaningful relationships within community
- Leadership expects relevant and quality learning experiences that align with the aspirations of the community
- Leadership builds capacity with all school and community partners

---

## Emerging VALUES

<b>Professionalism</b>	High expectations of ourselves and others
<b>Pedagogy</b>	Evidence-based, data-driven, innovative and student-centered
<b>Trust</b>	Building and nurturing confidence within our community through integrity and service
<b>Learning</b>	Learning is visible in the community and our communities are reflected in our learning environments
<b>Diversity</b>	Diversity is valued, respected, and reflected across all learning environments
<b>Equity</b>	Learners can count on equity of experience, opportunity, and the belief that they will be successful
